Learning English History And Culture Through "Pride and Prejudice"

"Pride and Prejudice" is a ^{film} ~~movie~~ by Joe Wright, released in 2005. ~~It is~~ It is based on Jane Austen's classical novel that brings up lots of different ~~conflicts~~ problems of that time. The main characters are Elizabeth Bennet and Mr. Darcy who have a love affair full of obstacles that used to exist in 19th century.

The story is based in a little village, ~~where~~ where young lady gradually falls in love with cryptical Mr. Darcy. Their relationships are vivid and beautiful because Keira Knightly who plays Elizabeth Bennet and Matthew Macfadyen who plays Mr. Darcy gave this film a special charm.

All of the actions are happening in Georgian time. Historical background is vital there because it shows why people of that time had to get married. Maintaining social status, getting dressed in big beautiful dresses, living in an estate and reading lots of novels were cultural differences of that time. ~~People~~ Besides, organizing special evening with music and dances where young men and women could find a spouse were a tradition among rich people. Some of the manners that can be seen in this film transported into modern ~~British~~ English culture, such as reading books so as to be clever.

In conclusion, I'd like to recommend this ^{film} ~~movie~~ to teenagers who want to learn English history and culture, because Joe Wright's work is perfect for it. I like ~~this film~~ "Pride and Prejudice" because it opens a window into British culture and history.
